U.S. DISTRICT COURT
SOUTHERN DIST OHIO
WEST DIV CINCINNATI

NO 01-01-734

MONA PARKS ETAL

plaintiff objection to ~~total~~ defendants response
to plaintiffs discovery items

The court order plaintiff to identify the items
needed in discovery and gave the defendants
14 days to respond to plaintiff motion. It is
now nearly 50 days later and the defendants
are just now responding. Defendants response
is not timely and should be stricken from
the record. The defendants further allege
that plaintiff has had an opportunity to review
and obtain the documents requested in this
case ~~and~~ and another and that there's ~~only~~
only four copies of informal complaints and
three grievances. Mr. Watley has not had the
opportunity to get these documents that's why
plaintiff's motion to compel is before this court
and there's not more informal complaints and
grievance as defendants alleges

for these reasons defendants response should be
denied
